SAMUEL FISHER
722 East Valley Rd
LOGANTON, PA 17747

Customer ID: **508042**
Certificate: **23-A-0724**
Site: 001
SAMUEL K FISHER

Type: ROUTINE INSPECTION
Date: 11-AUG-2022

3.30

Watering.

There was a buildup of bedding, fecal material, and debris in the bottom of the wastewater piping around the nipples of the automatic waterers in approximately 30 pens (approximately 1/3 of pens).

Failure to clean and sanitize waterers often enough to prevent accumulation of debris can result in decreased water intake or spread of disease which can negatively impact the health of the animals.

Watering receptacles must be kept clean and sanitized as necessary to maintain the health and well-being of the animals.

Correct by: August 25, 2022

This inspection and exit interview were conducted with _____.
