VALLEY WILDLIFE CARE

Type: ROUTINE INSPECTION

Date: 09-APR-2024

2.134(b)

Contingency planning.

The facility has not reviewed their contingency plan and documented the renewal annually. The contingency plan was last reviewed on May 11, 2022. Annual review of a contingency plan is important to ensure that potential disasters and emergencies have been addressed in the plan and it is still up to date and functional to include the species at the facility. Correct by 1 May 2024 by reviewing and updating the contingency plan as necessary at least annually and documenting all reviews and changes.

This inspection and exit interview were conducted with a facility representative.
