Low Country Biosource Inc
6133 MOUNT CARMEL RD
WALTERBORO, SC 29488

Customer ID: **10055**

Certificate: **56-B-0110**

Site: 001

LOW COUNTRY BIOSOURCE INC

Type: FOCUSED INSPECTION

Date: 02-NOV-2023

2.40(b)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

Upon inspection, one vial of "Humulin N" insulin was still being utilized beyond the recommended packaging timeframe and confirmed by the facility representative present that the medication was still being given to animals on-hand. The instructions on the box denote that any unused portion remaining 31 days after first opening should be discarded. The open vial identified was opened on August 6, 2023, and still being administered to two diabetic primates.

Medications may lose their strength and may no longer be effective as indicated for their use when used outside of the designated time table identified by the manufacturer. Additionally, the effect of the medications may be unpredictable, potentially leading to further illness when used beyond the intended time outlined on the label. The facility must ensure the availability of appropriate facilities, personnel, equipment, and services to comply with the provisions of this subchapter.

The facility corrected during the inspection.

This inspection and exit interview were conducted with authorized person.
