CITY GOAT FARM & ZOO INC

Type: ROUTINE INSPECTION

Date: 27-AUG-2021

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

A male zebu approximately 6 years old named "Archie" has medial claws that appear shorter than the lateral claws on both front hooves. In addition, the medial claw on the right front hoof curves upward and the medial claw on the left front hoof curves inward. Abnormalities of the hooves can lead to lameness or other conditions that affect animal welfare.

The licensee must have the animal examined by a veterinarian for a diagnosis and possible treatment plan. To be corrected by: 9/30/2021

2.75(b)(1)

Records: Dealers and exhibitors.

The animal records did not include two Angus calves acquired on 5/26/2021. Accurate and complete records enable the inspection process and provide traceability of the animals, which can help protect their welfare.

Corrected at the time of inspection.

This inspection and exit interview were conducted with the facility representatives.
