

Inspection Report

Opossum Society Of The United States
Po Box 1461
Yucaipa, CA 92399

Customer ID: **8510**

Certificate: **93-C-0705**

Site: 003

OPOSSUM SOCIETY OF THE UNITED STATES

Type: ROUTINE INSPECTION

Date: 11-AUG-2017

3.129(a)

FEEDING.

There is a moderate amount of food debris and uncovered food items on the shelves of the refrigerator. Food stored in this manner may be less palatable, become spoiled and/ or contaminated which can negatively affect the health and well-being of the animals.

The food shall be wholesome, palatable, and free from contamination and of...nutritive value to maintain all animals in good health. A system should be in place to ensure refrigerated food is stored in a manner which minimizes contamination and the refrigerator is cleaned out as often as necessary as required by the Act.

To be corrected by August 18, 2017

3.131(a)

SANITATION.

Two outdoor animal enclosures have a small to moderate amount of fecal material and debris collecting around the inside edges of the primary enclosures. This may increase disease hazards to animal housing areas.

Excreta shall be removed from primary enclosures as often as necessary to prevent contamination of the animals contained therein and to minimize disease hazards and to reduce odors. A system should be in place to ensure primary housing enclosures are cleaned as required by the Act.

To be corrected by August 18, 2017

This inspection and exit interview were conducted with the facility representative.
