Certificate: **74-C-0943**  
Site: 002  
Tiny Tails to You

Type: ROUTINE INSPECTION  
Date: 23-JAN-2023

---

### 2.134(a)

#### Contingency planning.

A contingency plan has not yet been developed at this facility. Dealers, exhibitors, intermediate handlers, and carriers must develop, document, and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster (one which could reasonably be anticipated and expected to be detrimental to the good health and well-being of the animals in their possession). A plan must be developed documented and followed and employees trained on the plan. CORRECT BY : 2/24/2023

### 3.56(c)

#### Sanitation.

The studio building housing the 35 rabbits is cluttered with an accumulation of animal caging, bedding, bags stored in plastic bins and other supplies not used in the daily care of the animals on top of the rabbit cages. Accumulation of supplies near animal enclosures makes proper cleaning of the animal room difficult and is also an area where pests may hide. Buildings must be kept clean and in order to facilitate husbandry practices. CORRECT BY : 1/31/2023

### 3.125(c)

#### Facilities, general.

## Inspection Report

---

In the studio building housing the 12 hedgehogs there is an open bag of hedgehog pellets directly on the floor. An open bag of feed may allow contamination by vermin or debris. All supplies of food and bedding must be stored in a manner that protects such supplies against deterioration and contamination by vermin. CORRECT BY: 1/31/2023

This inspection and exit interview were conducted with the licensee.

Additional Inspectors:

ELIZABETH PANNILL, VETERINARY MEDICAL OFFICER
