402 Zoo Circle  
Lufkin, TX 75904

Customer ID: **3890**  
Certificate: **74-C-0054**  
Site: 001  
City of Lufkin

Type: ROUTINE INSPECTION  
Date: 22-JUL-2024

---

### 3.153(a)(1)(iv) Critical

#### Primary enclosures.

While reviewing the past inventory, a discussion with facility representatives revealed that there were several birds that died due to what the facility representatives assumed was predation (due to the nature of the findings regarding the birds, and/or animals missing from their enclosure). The following birds were believed to have died due to predation: Four Chilean flamingos (ID#: #11007 on Jan 11, 2024, # 9924 on Jan 7, 2024, # 9994 on Jan 14, 2024, and # 9997 on Feb 9, 2024); and one Nicobar pigeon chick (#11197 on Jun 18, 2024). Primary enclosures that do not prevent other animals from entering the enclosure subject the animals to possible harm/injury which could negatively impact the health and well-being of the animals maintained. Primary enclosures must be constructed and maintained so that they restrict other animals from entering the enclosure. The facility implemented a number of corrective actions since the onset of the issue, including, but not limited to: securing animals in night quarters after hours; adding hotwire along the perimeter of the enclosure(s); removal of trees surrounding the enclosure(s); various types of predator traps; consultation with trapper(s); removal of trapped predators; et al.

Correct by: August 1, 2024

This inspection and exit interview were conducted with facility representatives.
