Certificate: **63-B-0189**
Site: 001
CRYSTAL FRAZIER

Type: RE-LICENSE INSPECTION
Date: 08-MAR-2022

2.40(b)(3) Direct

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

***The male coatimundi housed with the females has a wound on his tail. The tail is a stump approximately 5 inches in length and the skin around the end of the stump is gone leaving it bleeding. The coatimundi shall be examined and treated in accordance with the program of veterinary care. Correct by March 16, 2022.

***The male raccoon in the last enclosure has a wound on his left hindleg. There is a puncture wound on the top of the foot and a cut on the footpad, in addition the foot is swollen. When ambulating, the raccoon is favoring this foot indicating pain. This raccoon shall be examined and treated in accordance with the program of veterinary care. Correct by March 16, 2022.

3.125(a)

Facilities, general.

***The ground in the coyote enclosure and the coatimundi enclosure is dirt covered by a wire fence panel with large hole (approx. 2 x 4 inches). There are large areas where the dirt has washed out or been dug out leaving gaps that will allow the animals feet to pass through which could potentially cause injury. The dirt or substrate shall be refilled to eliminate the gap between the wire and the ground thereby protect the feet from becoming trapped or injured. Correct by March 16,

Inspection Report

2022.

***There is chicken wire lining the inside of the fence for the Carpathian Lynx. The wire has become detached from the chain link leaving gaps and frayed ends with points. The wire shall be repaired or replaced to protect the lynx from injury. Correct by March 16, 2022.

3.127(b)

Facilities, outdoor.

***There is only one kennel provided as shelter for the five raccoons housed together in the first enclosure. The kennel is of inadequate size to allow all four raccoons to be housed at the same time in the presence of inclement weather. Additional housing shall be provided to allow all of the raccoons shelter from inclement weather. Correct by March 16, 2022

This is a 1st Re-License Inspection for a Class "B" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspection(s) or by May 7, 2022 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
