FACILITIES, OUTDOOR.

(b)

***** At time of inspection the enclosures housing the 5 tiger cubs at the facility had only one housing structure which was completed and allowed protection and comfort from the elements. We are currently experiencing temperatures and wind chills into the high teens and 20 degree range with the chance for a winter mix being possible.

There is construction that has been started on additional housing structures that once completed will provide the tigers protection and will help to prevent discomfort to the animals during periods of inclement weather.

TO BE CORRECTED BY: 2/10/15

This inspection and exit interview conducted by APHIS, USDA, Animal Care Inspector and the facility representative.

END OF REPORT.
