Customer ID: 2117

Certificate: 21-C-0029

Site: 001

STATEN ISLAND ZOOLOGICAL SOCIETY

Type: ROUTINE INSPECTION

Date: 08-OCT-2014

### 2.38(f)(1)

#### MISCELLANEOUS.

Item Handling 2.38 f 1

On Feb 2, 2014 a groundhog was on exhibition as part of groundhog day celebration. During the handling the groundhog managed to escape from the hands of an untrained person and fall to ground. Medical records showed no apparent ill effects.

In addition about a week latter in Feb the same groundhog was used as an educational animal in a school when he managed to escape again from the handler it is unclear if the animal fell or just escaped, subsequently the groundhog was found deceased on Feb 9.

Licensee needs to insure only trained personnel handle animals so as to insure there is no stress or physical harm.

Correct from this day 10/8/14

### 2.40(x)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Item Veterinary care 2.40 b 3

In Feb of 2014 a groundhog was part of an educational exhibit when he managed to escape it is not certain if the animal fell as well as the veterinarian was not notified of this incident. even though the animal had managed to escape and fall during a previous exhibition about a week before, subsequently the animal was found deceased. Personnel need to report all incidents to the veterinarian so a professional judgment of the animals health can be made.

Correct from this day 10/8/14
