

## Inspection Report

The Mobile Zoo  
15161 Ward Road  
Wilmer, AL 36587

Customer ID: **31840**  
Certificate: **64-C-0178**  
Site: 001  
THE MOBILE ZOO

Type: ROUTINE INSPECTION  
Date: 08-DEC-2015

### 3.125(a) REPEAT

#### FACILITIES, GENERAL.

\*\* The den walls for the tigers, Magoo and Special and the lion Rainbow were made of wood landscape timbers. Some of the timbers were rotten and could easily be broken. The weakness of the walls could break posing the risk of injury or escape. The housing facilities must be repaired and/or replaced and should be maintained and kept structurally sound to protect and contain the animals.

\*\* The primary enclosure fence for the tiger, Tigger, had a loose wire that was hanging into the pen. The loose wire could pose the risk of entanglement and injury. The housing facilities should be maintained and kept structurally sound to protect the animals from injury.

### 3.127(d)

#### FACILITIES, OUTDOOR.

\*\* The perimeter fence for the black leopard Jack had a gap at the bottom that was about 4 inches high and 12 inches long. The second containment would not effectively hold the animal if it escaped. The perimeter fence must be constructed so that it serves as a secondary containment system for the animal in the facility for the animal and the public's safety. It was corrected by the exit interview.

The inspection was conducted with Bart Sutherland and the Zoo Director.

#### Additional Inspectors

Sutherland Bart, Veterinary Medical Officer

Prepared By: ANNETTE CHAPMAN, D V M USDA, APHIS, Animal Care

Date:  
10-DEC-2015
