### 3.127(d)

#### Facilities, outdoor.

The perimeter fence for the opossum's outdoor enclosure measured 4 feet in height. Perimeter fences should protect the animals by restricting animals and unauthorized persons from accessing the facility, and function as a secondary containment system. Non-dangerous animals housed in outdoor facilities require a 6-foot-tall perimeter fence around their enclosure and must be at least 3-feet away from any enclosures or buildings.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by June 18, 2023 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
