218 Route 519
Sussex, NJ 07461

Customer ID: **2061**
Certificate: **22-C-0018**
Site: 001
Space Wild Animal Farm Inc

Type: ROUTINE INSPECTION
Date: 13-AUG-2025

3.125(a)

Facilities, general.

There is an approximately 8" gap between the enclosure fence post and the gate of the Fallow deer enclosure. The adult deer are able to put their heads through this gap with ease. Due to this ability to place their heads through the space means that the fencing is no longer securely containing the deer.

Facility should repair this opening to prevent the adult deer from placing their heads through as well as any young fawns from fully passing through this space. This outdoor Fallow deer enclosure must be constructed with such materials that shall keep it structurally sound and in good repair in order to contain the animals and prevent injury to the deer housed therein.

The facility must be constructed of such material and of such strength as appropriate for the animals involved. The indoor and outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals.

TO BE CORRECTED BY: AUGUST 22, 2025

This inspection and exit briefing were conducted with the facility representatives.
