NATALIE CONNALLY

Type: ROUTINE INSPECTION
Date: 24-JUL-2014

3.11(c)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

Housekeeping for premises.

The outdoor area where housing facilities are located is cluttered with various objects and materials. There are wooden pallets stacked against the wire on the Bengal cat enclosure. Overgrown vegetation is in and along the enclosure containing a domestic cat and African serval. Premises where housing facilities are located, including buildings and surrounding grounds, must be kept clean and in good repair to protect the animals from injury and to reduce or eliminate breeding and living areas for rodents and other pests and vermin. Premises must be kept free of accumulations of trash, junk, waste products, and discarded matter. Weeds, grasses, and bushes must be controlled so as to facilitate cleaning of the premises and pest control, and to protect the health and well-being of the animals.

To be corrected by July 31, 2014

An exit interview was conducted with licensee at time of inspection.
