CURTIS, NE 69025

Customer ID: **1548**

Certificate: **47-R-0017**

Site: 001

NEBRASKA COLLEGE OF  
TECHNICAL

Type: ROUTINE INSPECTION

Date: 17-JAN-2024

---

### 3.10(a)

#### Watering

A 6 month old Pitbull/Australian Shepard mix has no water or water bowl during inspection at 2:30pm. All other dogs in the same housing area have water. The enclosures have log sheets that show that they are cleaned by students 3 to 4 times a day. The enclosure was last cleaned at 12:00PM. The dog was given a bowl of water at the time of inspection and did not drink. For their health, growth, and well being, growing dogs have a high demand for water. To ensure the availability of this vital requirement, potable water must be continuously available to all dogs unless restricted by the attending veterinarian.

To be corrected by: January 17, 2024

This inspection and exit interview were conducted with a facility representative.
