BROWN MACHEE COLLEGE

Type: ROUTINE INSPECTION

Date: 08-JUN-2016

2.31(d)(1)(2)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

Painful procedures as identified in the animal use protocol have not been included in the alternatives search. The IACUC meeting minutes document a discussion regarding potentially painful procedures occurred, and that methods to minimized pain and distress have been implemented. The protocol's alternative search, however, has not been updated. The last documented alternative search conducted in 2014 did not include keywords which reflect the potentially painful and/or distressful procedures as identified by the principal investigator and IACUC. Animals may experience unnecessary pain or distress if viable alternatives are available. Alternatives to procedures that may cause more than momentary or slight pain or distress to the animals must be considered, the principal investigator shall provide a written narrative description of the methods and sources used to determine that alternatives were not available.

Correct by: July 8, 2016

Exit briefing conducted with the Academic Director of Veterinary Technology

Prepared By: KERRY MCHENRY, D V M USDA, APHIS, Animal Care
