Certificate: **52-C-0269**

Site: 001

WOODSTONE MEADOWS  
STABLES INC

Type: ROUTINE INSPECTION

Date: 28-SEP-2023

---

### 2.40(b)

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The facility's current program of veterinary care does not include birds that are kept by the facility. A program of adequate veterinary care must be established by the facility and approved by the attending veterinarian to ensure: the appropriateness of the facilities for the species kept, that appropriate methods are employed for the prevention, control, diagnoses and treatment of disease, and that adequate guidance is provided to personnel involved in the care and use of animals, among other things outlined in this section of the Act. The absence of a program of adequate veterinary care and formal veterinary care for birds could lead to poor health and welfare outcomes for this group of animals.

Correct by ensuring that the program of veterinary care includes all regulated animals at the facility, and that the attending veterinarian is given adequate authority for their care by formal arrangement. Correct by October 31, 2023.

### 3.154

#### Environment enhancement to promote psychological well-being.

The facility does not have an environmental enhancement plan for birds. An environmental enhancement plan must be developed, documented, and approved by the attending veterinarian so as to promote the health and psychological well-being of birds.

Correct by ensuring that a complete, documented plan for environmental enhancement that addresses the required elements approved by the attending veterinarian is maintained and available for inspection. Correct by October 31, 2023.

This inspection and exit interview were conducted with a facility representative.
