Lake Mills, IA 50450

Customer ID: 6475
Certificate: 42-B-0159
Site: 001
HERITAGE PUPPIES L.L.C

Type: ROUTINE INSPECTION
Date: 28-MAR-2017

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Female Shih tzu (tag #3074) has an abnormal condition of the eyes. The left eye is a cloudy, blue color and the white of the eye is moderately reddened. The center of the eye has a small indentation outlined with a dark red material. There is a dark, yellowish-green colored discharge matted in the hair outlining the eye. The right eye is also a cloudy, blue color and the white of the eye is slightly reddened. There is a dark, yellowish-green discharge matted in the hair around the eye. Brown, crusty material is attached to the hair beneath the bottom corner of the eye.

Male Shih tzu (tag #3293) has an abnormal condition of the left eye. The left eye is a cloudy, blue color and the surface of the eye is coated with a yellowish-green discharge. A brown, crusty material is located along the bottom eye lid, the top of the eyelid, and on the surface of the eye. The brown, crusty material is also attached to the hair above and below the eye.

The facility representatives had not noticed the condition of these dogs and neither dog was currently receiving any treatment for their eyes. Poor eye health could cause pain and discomfort to the dogs as well as, lead to further health issues.

The above mentioned dogs must be evaluated by a licensed veterinarian for a proper diagnosis and to establish an effective treatment plan. The diagnosis and treatment plan must be documented in writing and available to the inspector upon request. The licensee must ensure that all dogs receive adequate veterinary care at all times.

Correction date: End of business March 31, 2017

This inspection and exit interview were conducted with ACI Kelly Maxwell, VMO Autumn Unck, and the facility representative.
