Type: ROUTINE INSPECTION
Date: 12-AUG-2014

2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The last documented facility visit by the attending veterinarian was in 2011 . The written program of veterinary care is present but it does not address any treatments the animals may receive nor is there mention of availability of emergency care. The attending veterinarian must make regularly scheduled visits to the facility and the written program of veterinary care must include recommended treatments and provisions for emergency care to ensure animal receive adequate veterinary care.

CORRECT BY : 9-12-14

3.33(b)

CLASSIFICATION AND SEPARATION.

At time of the inspection , there were 3 enclosures housing rabbits that each also housed a guinea pig. Rabbits may harbor bacteria that may harm the guinea pigs. Guinea pigs must be housed in enclosures that do not contain other species of animals to ensure their health and well being .

CORRECT BY : 8-14-14

The inspection was conducted with a store employee and the exit briefing was conducted with the owner by phone.
