## Inspection Report

---

On the southeast side of the outdoor enclosure housing 2 adult dogs named "Phedra" (ID #43) and "Archie" (ID # 86) is exposed ground fencing with holes large enough for the feet to get caught and potentially cause an injury to the animals.

On the east side of the outdoor enclosure housing an adult dog named "Sawyer" (ID #66) is exposed ground fencing with holes large enough for the feet to get caught and potentially injure the animal.

On the west side where the concrete has broken away in the outdoor enclosure housing 2 adult dogs named "Sika" (ID #58) and "Orley" (ID # 57) is exposed ground with holes large enough for the feet to get caught and potentially cause an injury to the animals.

On the east side next to the main road in the outdoor enclosure housing 3 adult dogs named "Rowan", (ID 25), "Juno" (ID # 23) and "Siren" (ID # 24) is exposed ground with a large hole dug underneath the fence. The holes are large enough for the feet to get caught and potentially cause an injury to the animals.

On the east side of the outdoor enclosure housing 2 adult dogs named "Akayla" (ID # 21) and "Sable" (ID # 22) is exposed ground fencing with holes large enough for the feet to get caught and potentially cause an injury to the animals.

On the north side of the outdoor enclosure housing an adult dog named "Destiny" (ID # 15) is exposed ground fencing with holes large enough for the feet to get caught and potentially injure the animal.

On the north, southwest and east sides of the outdoor enclosure housing 2 adult dogs "Rukai" (ID # 8) ,and "Ghost" (ID # 70) is exposed ground fencing with holes large enough for the feet to get caught and potentially cause an injury to the animals.

Maintain all housing facilities so that they are structurally sound and kept in good repair so that they protect the animals from injury.

### 3.1(e)

#### HOUSING FACILITIES, GENERAL.

##### 3.1 Housing facilities general. (e). Storage

One open bag of dry dog food and one open bag of dry cat food are being stored inside the walk-in sea/land container utilized for food storage. Opened bags of food can become spoiled, contaminated and infested with vermin.

## Inspection Report

---

Ensure that all open supplies of food be kept in a leak proof container with a tightly fitted lid to protect the supplies from spoilage, contamination and vermin infestation.

To be corrected by: Corrected during time of inspection

### 3.6(a)(2)(1) REPEAT

#### PRIMARY ENCLOSURES.

##### 3.6 Primary enclosures. (a) General requirements. (2) (i)

Enclosure housing 3 adult dogs named "Rowan" (ID # 25), "Juno" (ID # 23) and "Siren" (ID # 24) along the front gate near the main road the unburied ground fencing has exposed pieces of metal wire with sharp points protruding towards the animals. The sharp points present an injury hazard to the animals. This was corrected during time of inspection.

Enclosure housing 2 adult dogs named "Akayla" (ID # 21) and "Sable" (ID # 22) along the east side the unburied ground fencing has exposed pieces of metal wire with sharp points protruding towards the animals. The sharp points present an injury hazard to the animals. This was corrected during time of inspection.

Enclosure housing 2 adult dogs named "Rukai" (ID # 8) and "Ghost" (ID # 70) along the north, southwest and east side the unburied ground fencing has exposed pieces of metal wire with sharp points protruding towards the animals. The sharp points present an injury hazard to the animals. This was corrected during time of inspection.

Construct and maintain all primary enclosures to that they have no sharp edges or points that can cause injury to the animals.

Inspection and an exit briefing was conducted with APHIS personnel and licensee.
