

Inspection Report

Agnes Sagrati
65 Canal Street
South Bound Brook, NJ 08880

Customer ID: **506425**
Certificate: **22-A-0033**
Site: 001
AGNES SAGRATI

Type: ROUTINE INSPECTION
Date: 29-SEP-2021

3.131(d)

Sanitation.

Numerous flies were present throughout the sugar glider housing area. Flies were observed around the sugar glider enclosures, near food dishes, and catch pans. A couple of flies strips were observed in front of the window at the back of the room. The fly strips had flies covering them and were not effective in controlling the amount of flies present. Flies can contaminate food and spread diseases. A safe and effective method to control insects shall be established and maintained.

TO BE CORRECTED BY: OCTOBER 8, 2021

This inspection and exit briefing were conducted with the facility representatives.

Additional Inspectors:

JESSICA GOWINS, VETERINARY MEDICAL OFFICER
