

Inspection Report

Olympic Game Farm Inc.
1423 Ward Road
Sequim, WA 98382

Customer ID: 3419

Certificate: 91-C-0006

Site: 001

OLYMPIC GAME FARM, INC.

Type: ROUTINE INSPECTION

Date: 18-FEB-2016

3.125(a)

FACILITIES, GENERAL.

-The roof on the barn for the petting zoo animals has missing and damaged tiles. Damaged roofing may decrease the effectiveness of the barn to provide adequate shelter. The roof must be repaired or replaced. To be corrected by: April 15, 2016

- The ceiling above the meat preparation table in the cold storage unit has peeling paint present. This surface cannot be adequately cleaned and may allow contamination of the food being prepared below it. The ceiling surface must be repaired or replaced. To be corrected by: March 18, 2016

- Several of the enclosures housing wolves and tigers have peeling paint present. These surfaces cannot be adequately cleaned and sanitized. The affected surfaces must be repaired. To be corrected by: May 18, 2016

3.127(d)

FACILITIES, OUTDOOR.

The perimeter fence surrounding the facility has sections that are overgrown from adjacent bushes and other vegetation. In addition, there are large sections where the top of the perimeter fence is bowing over into the facility. Overgrowth of plants can compromise the strength of the fencing, and also make it difficult to see any damaged areas. In addition, as the fencing bends down, it lowers the overall height of the fence and can decrease its strength and effectiveness as a secondary containment for the animals.

The perimeter fence must be repaired or replaced. The licensee has planned an outer perimeter fence replacement project. The total perimeter of the facility is approximately 11,034 feet or 2.089 miles with 9,671 feet or 1.831 miles that still need repair/replacement. The plan will break the work into four phases: phase I will be the entire elk/bison field along Ward Road; phase II will extend from the bear cattle guard to the Jim Lotzgesell Road stop sign; phase III will extend from there to the Lotzgezell red house; and finally, phase IV will be the fencing from the Lotzgezell red house to the parking lot.

To be corrected by: August 31, 2017

Prepared By: DIANE FORBES, D V M USDA, APHIS, Animal Care
