Type: ROUTINE INSPECTION

Date: 13-JUN-2017

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

A clear pink solution was found to be in a container with commercial label for Bismuth. The solution did not appear to be Bismuth and the facility veterinarian was not able to identify it. Multiple syringes containing a clear liquid were found in the same room in a clear bag. Neither the syringes nor the bag were labeled. Lack of properly labeled medications and other substances can lead to errors in the delivery of treatments to the animals. A system of proper labeling must be in place.

These items were discarded at time of the inspection.

CORRECT FROM THIS DAY FORWARD

The inspection and exit briefing were conducted with the facility employees.
