2.126(a)(2)

Access and inspection of records and property; submission of itineraries.

Acquisition record information for a new barn owl obtained in April 2024 was not available for review today. The facility representative contacted leadership who stated that they did have the form that contains the acquisition information required by the Animal Welfare Act regulations but the form was not able to be found in the records notebook. Accurate recordkeeping with records available for review by APHIS officials is necessary to allow for legal and medical tracing and for inspections to be conducted. The facility shall have available all records required to be kept by the AWA for APHIS officials to examine. Correct by 11/20/24.

This inspection and exit interview were conducted with the facility representative.
