Date: 14-MAR-2016

2.40(b)(3)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The Attending Veterinarian (AV) has not been to the facility recently to inspect the animals.

The older brown llama had a baby and she lost some weight since last observed by me and the front teeth are long which may make it difficult for her to eat. The hoof need to be trimmed for the llamas and donkeys under exhibit as often as necessary and as determined by the AV.

In order to comply with this section of the AWA regulations, daily observation of all animals to assess their health and well-being; Provided, however, That daily observation of animals may be accomplished by someone other than the attending veterinarian; and Provided, further, That a mechanism of direct and frequent communication is required so that timely and accurate information on problems of animal health, behavior, and well-being is conveyed to the attending veterinarian.

To be corrected by 3-30-2016

2.126(a)(2) REPEAT

ACCESS AND INSPECTION OF RECORDS AND PROPERTY; SUBMISSION OF ITINERARIES.

Records and PVC was not available for inspection.

In order to comply with this section of the regulation exhibitors shall have records required by AWA available for inspection during normal business hours.

3.129(a)

FEEDING.

The feed bags in the storage barn was directly on the floor, one bag was open and not in the container and there was a sprayer container used to spray Malathion with the hose on top of the feed. Animals are all fed together without paying any special attention to the young and older animals.

The food shall be wholesome, palatable, and free from contamination and of sufficient quantity and nutritive value to maintain all animals in good health. The diet shall be prepared with consideration for the age, species, condition, size, and type of the animal.
