Environment enhancement to promote psychological well-being.

At the time of inspection, there was no documented environmental enhancement plan for the six non-human primates housed at the facility. An adequate environmental enhancement plan is essential in promoting the psychological well-being of non-human primates. Dealers, exhibitors, and research facilities must develop, document, and follow an appropriate plan for environment enhancement adequate to promote the psychological well-being of non-human primates, it must be in accordance with the currently accepted professional standards and as directed by the attending veterinarian. The licensee must ensure that a documented plan for environmental enrichment that addresses the required elements is maintained and available for inspection. To be corrected by May 18, 2023.

This inspection and exit interview were conducted with the facility curator and additional staff.
