Facilities, outdoor

No adequate shelter was provided for "Kamikaza" an adult Peregrine Falcon of unknown age that is outdoor housed. Failure to provide shelter for outdoor housed birds may expose them to weather conditions that contribute to their poor psychological welfare or cause illness or injury. Outdoor housing facilities must provide adequate shelter, appropriate to the species and physical condition of the birds, for the local climatic conditions to protect the birds from any adverse weather conditions. Corrected at time of inspection.

Correct from this date forward of 21 December 2023.

This inspection and exit interview were conducted with facility representatives.
