Type: ROUTINE INSPECTION
Date: 07-AUG-2023

2.134(a) Repeat

Contingency planning.

The Contingency Plan available for review at the time of the inspection was incomplete. The Licensee used APHIS Form 7093 (USDA/APHIS/Animal Care Contingency Planning Program) to document the Contingency Plan, but the sections of the form were blank where provide the details of the Plan for the situations that trigger implementation of the Plan, the specific tasks/responsible person(s) for the tasks, and the specific resources needed to perform the tasks.

Per this Section, exhibitors must develop, document, and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster (one which could reasonably be anticipated and expected to be detrimental to the good health and well-being of the animals in their possession) and should have been in place by 7/5/22. The contingency plan requirement ensures that the animals receive proper care during emergency situations.

This inspection and exit briefing were conducted with Licensee.
