THE C A R E FOUNDATION

Type: ROUTINE INSPECTION

Date: 29-APR-2024

3.150(a)

Facilities, general.

One of the structures housing the domestic pigeons requires maintenance. The door on the enclosure has a hole in the door that can allow in rodents or the escape of a bird.

The structures housing birds must be kept in good repair, protect the birds from injury and restrict other animals from entering that may negatively affect the welfare of the birds within.

This structure must be maintained and kept in good repair to protect the birds and keep other animals out.

Correct by May 21, 2024

3.127(d)

Facilities, outdoor.

The 2 perimeter fences surrounding 2 raccoon enclosures housing 3 raccoons is not 6 feet tall. At the time of inspection the perimeter fence was measured at 5 foot 7 inches

An appropriate perimeter fence is required to protect the raccoons by restricting animals and unauthorized persons from having contact with the raccoons and to act as a secondary containment system.

The enclosures for the raccoons must be enclosed by a perimeter fence at least six feet high.

Correct by May 15, 2024

3.154

Environment enhancement to promote psychological well-being.

Although the facility provides enrichment to the birds, they do not have an environmental enhancement plan in place to promote the overall psychological well-being of the birds at the facility. The facility must develop, document, and follow a species appropriate plan for environmental enhancement to promote the psychological well being of the birds that is
