KATHRYN LANGHAM

Type: ROUTINE INSPECTION

Date: 05-JUN-2023

2.126(a)(2)

Access and inspection of records and property; submission of itineraries.

Availability of records.

At the time of the inspection, the Licensee could not locate the documents/records that are required under the AWA (specifically the written Program of Veterinary Care and the acquisition/disposition records for the animals). As a result, these required documents/records could not be reviewed during the inspection.

Per this Section, all documents and records that are required to be kept under the Animal Welfare Act (AWA) should be available at the time of an inspection so the required records can be reviewed to determine the facility's compliance with the provisions of the AWA. Copies of all documents and records required under the AWA need to be on the premises and available for review. Correct from this date 6/7/23 forward.

2.134(a)

Contingency planning.

There was no Contingency Plan developed or documented by the Licensee at the time of the inspection. A written plan should have been in place by 7/5/22.

Inspection Report

Per this Section, exhibitors must develop, document, and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster (one which could reasonably be anticipated and expected to be detrimental to the good health and well-being of the animals in their possession). The contingency plan requirement ensures that the animals receive proper care during emergency situations. Correct by 7/7/23.

This inspection and exit briefing were conducted with the Licensee.
