

## Inspection Report

Fox Valley Wildlife Center Inc  
P O Box 385  
Elburn, IL 60119

Customer ID: **20023**  
Certificate: **33-C-0364**  
Site: 001  
FOX VALLEY WILDLIFE CENTER

Type: ROUTINE INSPECTION  
Date: 28-JUN-2017

### 3.131(d)

#### SANITATION.

Rodent feces were observed on the floor around the opossum enclosure and on the floors and counter of the kitchen/food preparation room during the time of inspection. A trail of rodent feces was observed adjacent to and behind the opossum enclosure. Large amounts of rodent feces were located behind the Amana refrigerator and along the cupboard kick plate in the kitchen. Finally, rodent feces were also observed on the kitchen counter behind the plastic food bins. The facility has traps and other pest control methods in place, however; they are not effectively controlling the population of rodents. Rodents can carry and spread diseases.

An effective program for rodent control must be implemented and maintained at the facility.

To be corrected: 7-19-17

This inspection and exit interview were conducted with the facility representative.
