RIVER FALLS

Type: ROUTINE INSPECTION

Date: 15-JUN-2023

2.38(l)(1)

Miscellaneous.

The facility has not yet documented a contingency plan. The former IACUC Chair stated that a framework for the plan has been started with information to put the plan together, but the entire plan has not been completed and available for review. A contingency plan is necessary to provide for the humane handling, treatment, transportation, housing and care of the animals in the event of an emergency or disaster which could reasonably be anticipated and expected to be detrimental to the good health and well-being of the animals. Prepare, complete, and implement an appropriate contingency plan. Correct by 17 July 2023.

This inspection and exit interview were conducted with Facility Representatives.
