3.1(c)(1)

HOUSING FACILITIES, GENERAL.

There are 4 wolf hybrids in one enclosure. They have an elevated wooden dog house with two sets of steps up to it. The wood on one set of the steps is water soaked, splintering and cracking. These steps need to be removed or replaced.

In another enclosure are two wolf hybrids. The ground fencing along one edge of their enclosure is uncovered as the dirt washed or was dug away. This ground wire needs to be covered back over to prevent tripping or possible injury.

To be corrected by 9-8-14.

Exit briefing conducted with facility representative.
