Site: 001
CHRIST S BEILER

Type: ROUTINE INSPECTION
Date: 05-FEB-2021

3.31(b) Repeat

Sanitation.

Housekeeping. There is a buildup of cobwebs, dust, dirt, and debris on windows, window ledges, bowls and miscellaneous items stored on window ledges, empty enclosures, walls, and support posts in the guinea pig room. Animal facilities must be kept clean to ensure good quality of the air for the animals and to prevent unnecessary disease risks. Ineffective cleaning and housekeeping can expose the animal to disease hazards and health problems. Correct by ensuring the premises are kept clean, including: removing the buildup of dust, dirt, cobwebs, and debris; routinely dusting off and cleaning surfaces in animal room; and maintaining a level of general cleanliness to support good animal husbandry and health.

Remains uncorrected.

This inspection and exit interview were conducted with the licensee.
