9275 Adams Street
Zeeland, MI 49464

Customer ID: 7727
Certificate: 34-C-0146
Site: 001
CRITTER BARN

Type: ROUTINE INSPECTION
Date: 02-APR-2015

2.40(a)(1) REPEAT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The licensee does not have a program of veterinary care with written instruction on the care of the animals held by the facility including a dog, rabbits, cats, pigs, cows, goats and sheep.

Each exhibitor shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the premises of the exhibitor.

Have the veterinarian(s) complete a written program of veterinary care for all species maintained at the facility. Veterinary recommendations for care of all animals must be included in the program. APHIS inspectors then use this information while inspecting the animals in order to determine if veterinary recommendations are being followed by the facility. This program is a valuable tool in order to ensure the continuing health and comfort of these animals.

To be corrected by April 16, 2015.

3.125(a)

FACILITIES, GENERAL.

The enclosure housing goats on the Northeast side of the barn has a fence panel that has broken away from the post and is being loosely held in place with binder twine.

The facility must be constructed of such material and of such strength as appropriate for the animals involved. The indoor and outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals.

Repair the fence to properly contain the goats and prevent injury.

To be corrected by April 7, 2015.

Inspection Report

3.130

WATERING.

The enclosure housing four calves had no water and no water receptacle.

If potable water is not accessible to the animals at all times, it must be provided as often as necessary for the health and comfort of the animal. Frequency of watering shall consider age, species, condition, size, and type of the animal. All water receptacles shall be kept clean and sanitary.

Ensure that all animals have access to clean potable water.

To be corrected by end of business today.

Inspection and exit conducted with the Executive Director.
