PREDATORS OF THE HEART

Type: RE-LICENSE INSPECTION
Date: 27-JUL-2022

3.1(a) Critical

Housing facilities, general.

Three wolf/dog hybrids escaped under their enclosure fence, and a small dog was killed during that time. The incident occurred on 10/19/2021. According to the licensee, the three animals were quickly recalled back to the facility and placed in a secure enclosure. During the escape, however, the 5-year-old female wolf/dog hybrid named "Celine" killed a small dog. Due to the local animal control regulations, the facility elected to euthanize that animal.

Housing facilities for dogs must be designed and constructed so that they are structurally sound. They must be kept in good repair, protect the animals from injury, contain the animals securely, and restrict other animals from entering. Such measures assist in preventing possible escape and injury, thus safeguarding their welfare.

To be corrected: from this time forward.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by September 25, 2022 or the applicant will forfeit the license
