Lyndonville, NY 14098

Customer ID: **329371**
Certificate: **21-A-0166**
Site: 001
MARLIN YODER

Type: ROUTINE INSPECTION
Date: 20-MAR-2014

3.11(b)(2)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

*** Several of the feeders are dirty with a layer of grime and debris underneath the lip of the feeder. These feeders need to be cleaned and sanitized on a routine basis for the health of the dogs.

Correct by: March 28, 2014

3.11(c)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

*** There is an empty enclosure across from the whelping boxes. The enclosure has been empty for a month but still has food in the feeder and there is dust and grime on the floor of the mesh. Once empty these enclosures should be cleaned and sanitized in a timely manner to reduce any disease hazards and to promote good housekeeping practices in the kennel.

*** Currently parasite control and other husbandry items are being stored on top of the whelping boxes, along with paint cans and other non husbandry items. These items should be stored in a bin or cabinet and not directly on top of the whelping boxes. This is for the safety of the animals and to keep items like cleaners and paint supplies away from medicines.

Correct by: March 28, 2014

An exit briefing was conducted with the licensee at the time of the inspection.
