West Palm Beach, FL 33411

Customer ID: **6002931**

Certificate: **58-C-1242**

Site: 001

Florida Madagascar Breeder Inc

Type: ROUTINE INSPECTION

Date: 30-MAR-2023

3.27

Facilities, outdoor.

At the time of inspection, the facility was housing nine guinea pigs and two hamsters in outdoor enclosures. Hamsters are sensitive to temperature extremes and shall not be housed in outdoor facilities. Guinea pigs are also sensitive to temperature extremes and shall not be housed in outdoor facilities unless such facilities are located in an appropriate climate and prior approval for such outdoor housing is obtained from the Deputy Administrator. The guinea pigs and hamsters shall be moved to indoor enclosures that provide adequate climate control. To be corrected by March 31, 2023.

3.58(a)

Classification and separation.

One rabbit was housed in an enclosure with five guinea pigs. Another enclosure contained six rabbits, two guinea pigs, and a bird. Rabbits should not be housed with other species unless for scientific reasons. Housing rabbits with other animals may have a negative impact on the health and well-being of either animal, due to the potential spread of diseases between species and risk of injury. The licensee shall ensure that rabbits are not housed in the same primary enclosure with other species. To be corrected by March 31, 2023.

3.81

Environment enhancement to promote psychological well-being.

Inspection Report

At the time of inspection, there was no documented environmental enhancement program for the two non-human primates housed at the facility. An adequate environmental enhancement program is essential in promoting the psychological well-being of non-human primates. Dealers, Exhibitors, and research facilities must develop, document, and follow an appropriate plan for environment enhancement adequate to promote the psychological well-being of non-human primates, it must be in accordance with the currently accepted professional standards and as directed by the attending veterinarian. The licensee must ensure that a documented plan for environmental enrichment that addresses the required elements is maintained and available for inspection. To be corrected by April 20, 2023.

This inspection and exit briefing were conducted with the licensee.
