Certificate: **58-C-1028**

Site: 001

THE WILDLIFE CENTER AT
UNCLE DONALDS FARM INC

Type: ROUTINE INSPECTION

Date: 27-APR-2023

2.40(a)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

No written program of veterinary care was available for review. A written program veterinary care is required to demonstrate adequate veterinary care and Attending Veterinarian oversight of health care and husbandry is being provided to the animals. A written program of veterinary care covering all animals must be completed by May 11, 2023.

3.56(a)(1)

Sanitation.

There is an excessive accumulation of hair and waste on the wire surfaces of the angora rabbit enclosure. Hair and debris accumulating on enclosures can expose the animals to potential disease hazards. Enclosures must be kept reasonably free of hair and debris by cleaning surfaces on a regular basis. Correct by April 29, 2023.

This inspection and exit interview were conducted with a facility representative.
