Kowiachobee Animal Preserve Inc  
2861 Fourth Ave S E  
Naples, FL 34117

Customer ID: **14803**

Certificate: **58-C-0942**

Site: 001

KOWIACHOBEE ANIMAL PRESERVE INC

Type: ROUTINE INSPECTION

Date: 23-MAY-2016

### 2.131(c)(1)

#### HANDLING OF ANIMALS.

There is a space with no barrier in front of the cougar enclosure where members of the public can enter.

During public exhibition there must sufficient distance and/or barriers between the animal and the general viewing public so as to assure the safety of animals and the public.

TO BE CORRECTED BY: JUNE 1, 2016.

### 3.125(a)

#### FACILITIES, GENERAL.

The fencing for the new primary enclosure housing the Subaliczar and lion Shaumbay does not have enough height to contain these animals. The height of resting platform to the top of the enclosure is approximately 10' and less than 10' from the top of the fencing. These large felids are several years old and there is evidence that large felids can escape enclosures with heights of 12'.

Outdoor housing facilities shall be constructed to protect the animals from injury and to contain the animals.

TO BE CORRECTED BY: JUNE 16, 2016.

### 3.127(d)

#### FACILITIES, OUTDOOR.

1) The entrance gate to the facility which is part of the perimeter fence was open during and after the inspection. This gate must be remained closed after each use. 2) There are several sections of perimeter fencing that is damaged located to the left side of the entrance that needs to be repaired or replaced.

## Inspection Report

---

Perimeter fences protect the animals in the facility by restricting animals and unauthorized persons from going through it or under it and having contact with the animals in the facility, and so that it can function as a secondary containment system for the animals in the facility.

TO BE CORRECTED BY: JUNE 13, 2016.

This inspection was conducted with the care taker and exit interview with the licensee.
