Certificate: **71-A-1353**
Site: 002
GAIL BEAR

Type: ROUTINE INSPECTION
Date: 28-MAR-2018

2.40(b)(2) DIRECT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

A female Havanese, identified as Octavia, has a large, moist wound on her rump, approximately 5" X 4". The wound is raw, red, and producing a yellow exudate. The licensee stated that he was treating her for a hotspot with a protocol prescribed by the veterinarian for a different dog. The licensee must follow appropriate treatment protocols as prescribed by the attending veterinarian and communicate in a timely manner when treatment is not progressing towards healing.

Correct by having the animal evaluated and treated by a licensed veterinarian by close of business March 30th, 2018.

A female Cavalier King Charles Spaniel identified as Swaddles, has a thick yellow film covering approximately 1/3 of her right eye. The licensee stated that she had been diagnosed with a chronic condition by the veterinarian but that they were not regularly treating her with the eye drops prescribed.

Correct by having the animal evaluated by a licensed veterinarian for stability of condition and treat as directed by close of business March 30th, 2018

3.3(e)(1)(iii)

SHELTERED HOUSING FACILITIES.

Two adult female dogs with puppies, a Havanese, identified as Maya with 2 puppies, and a Cavalier King Charles Spaniel identified as Ruby with 1 puppy, are housed in enclosures with cardboard whelping boxes. The cardboard boxes are not treated or otherwise coated so they are not impervious to moisture. In a sheltered housing facility, all walls, boxes, houses, dens, and other surfaces in contact with animals must be impervious to moisture.

Correct by providing whelping boxes that are impervious to moisture that can be cleaned and sanitized on a regular basis.

Correct by: April 11th, 2018

This inspection and exit interview were conducted with the facility owner.
