Type: ROUTINE INSPECTION
Date: 03-AUG-2015

3.131(a)

SANITATION.

Hedgehog primary enclosures (Teasel, Elsa, Amos, Elvira, Snowdrop, Chinchincheree) had exercise wheels with an excessive accumulation of feces and wet, bedding material. The buildup of feces and waste material may increase the risk of disease hazards and soiling of the animals. All enclosures, including the exercise wheels, must be cleaned frequently enough to prevent contamination of the animals contained therein, to minimize disease hazards and to reduce odors. A timely and effective cleaning schedule for all animal enclosures must be in place to ensure the health and well-being of the animals.

Correct by 08/07/2015

Exit interview conducted with facility representative.
