Certificate: **16-C-0161**
Site: 001
ZENKO FARM LLC

Type: ROUTINE INSPECTION
Date: 03-OCT-2024

3.125(a)

Facilities, general.

A large piece of metal fencing material had been ripped away from an enclosure housing one pig, creating several sharp points and jagged edges that were accessible to the pig. Sharp points and jagged edges can cause injuries to animals and negatively impact their welfare. Indoor and outdoor housing facilities shall be maintained in good repair to protect the animals from injury. Correct by October 17, 2024.

3.154

Environment enhancement to promote psychological well-being.

A written plan for environment enhancement to promote the psychological well-being of the birds had not been developed and approved by the Attending Veterinarian and was not available for review at the time of the inspection.

Per this Section, exhibitors must develop, document, and follow a species-appropriate plan for environment enhancement to promote the psychological well-being of birds. The plan must be approved by the Attending Veterinarian and must be in accordance with currently accepted professional standards as cited in appropriate professional journals or reference guides. At a minimum, the plan must address each of the following: social grouping, environmental enrichment, special considerations, restraint devices, and exemptions. The facility must develop an environment enhancement plan appropriate for the species of birds maintained and the plan must be approved by the Attending Veterinarian. Correct by October 17, 2024.

This inspection and exit interview were conducted with a facility representative.
