Type: ROUTINE INSPECTION
Date: 19-MAY-2021

2.75(b)(1)

Records: Dealers and exhibitors.

At the time of inspection, the licensee has 10 sugar gliders. There were 207 sugar gliders on the inventory at the last inspection in 2019. The licensee stated most of the colony was sold or donated in early 2020 to ensure compliance with county animal laws. There are no records of disposition for the animals. Records of animals sold or donated should be maintained to facilitate the tracking of animals used in regulated activities. Accurate records that fully disclose the sales and donations of animals must be kept and maintained by the licensee to facilitate the regulatory process and to ensure compliance with the animal welfare regulations. The records must be updated to include the required information for recordkeeping as outlined in the Animal Welfare regulations. Correct by June 7, 2021

This inspection and exit interview were conducted with the licensee.
