Certificate: **74-C-1052**

Site: 001

PeePs and Creeps Inc.

Type: ROUTINE INSPECTION

Date: 21-NOV-2023

2.75(b)(1)(iii)

Records: Dealers and exhibitors.

There is incomplete information on the acquisition records for one adult female hyacinth macaw and one adult female blue and gold macaw. These records are incomplete because they do not have the additional identification information necessary for persons who are not licensed or registered under the Animal Welfare Act. This information is needed to help track the movements of covered species and help ensure they are used in a humane manner.

The licensee must ensure that all information required under Part 2, Subpart G, Section 2.75(b) is captured in the acquisition and disposition records for all covered animals, to include the vehicle license number and State, and the driver's license number (or photographic identification card for nondrivers issued by a State) and State of the person, if he or she is not licensed or registered under the Animal Welfare Act.

TO BE CORRECTED BY 11/22/2023

2.131(d)(2)

Handling of animals.

There are three head of cattle, seven pigs, one sheep and one rhea housed in outdoor pens without public barrier fencing or a facility attendant present. At the time of inspection, three members of the public are seen reaching through the pen fencing to pet and offer food to these animals.

Public barriers or facility attendants are important to protect both the animals and people; people or animals can be injured by unsupervised, direct contact and animals can become ill if they eat food or objects presented to them by people. The licensee must ensure that there is sufficient distance and effective barriers of sufficient height and integrity between the animals and the general viewing public whenever a responsible, knowledgeable, and readily identifiable employee is not present during periods of public contact.

TO BE CORRECTED BY 11/22/2023

2.131(d)(4)

Handling of animals.

At the time of inspection, three members of the public are seen reaching through fences of animal pens to offer food they brought to the facility to three head of cattle, seven pigs, one sheep and one rhea. Animals can become ill if they eat food not provided by the animal facility or objects presented to them by people. The licensee must ensure that, if public feeding of animals is allowed, all food must be provided by the animal facility and shall be appropriate for the type of animal and
