Type: RE-LICENSE INSPECTION
Date: 11-SEP-2023

2.40(a)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The facility had an old written program of veterinary care from 2021 available for review.. However, this was completed for a different veterinarian and has not yet been reviewed or approved by the current attending veterinarian. A complete program of veterinary care is important to ensure that a veterinarian is assisting with appropriate recommendations regarding the health and well-being of each regulated species.

3.154

Environment enhancement to promote psychological well-being.

The applicant is missing a completed environmental enhancement plan for birds. They have the written plan started, but it is missing some of the required components including: social grouping, environmental enrichment, special considerations, restraint devices and exemptions. Additionally the plan must be approved by the attending veterinarian. A species-appropriate plan for environmental enhancement is necessary to promote the psychological well-being of birds.

This is a 1st Re-License Inspection for a Class C license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by Nov. 10th, 2023 or the applicant will forfeit the license fee and must wait 6 months to reapply.

Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
