Type: RE-LICENSE INSPECTION
Date: 04-APR-2023

2.131(c)(1)

Handling of animals.

The public barrier for the meerkat enclosure is insufficient. On 5 March 2023, a member of the public reached over the glass barrier of the meerkat enclosure in an effort to touch one of the animals. One of the meerkats bit this person. Insufficient public barriers can lead to injury to the animals and the public. The facility must ensure that during public exhibition, any animal must be handled so there is minimal risk of harm to the animal and to the public, with sufficient distance and/or barriers between the animal and the general viewing public so as to assure the safety of animals and the public.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by 4 June 2023 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection. Regulated activity can continue under your existing USDA license until it expires.
