#### Environment enhancement to promote psychological well-being.

The licensee is missing a completed species-appropriate environmental enhancement plan for birds. They are providing enrichment to the birds but lack a written plan approved by the attending veterinarian. A species-appropriate plan for environmental enhancement is necessary to promote the psychological well-being of the birds. The plan, at a minimum, must address social grouping, environmental enrichment, special considerations, restraint devices, and exemptions. To be corrected by January 18th, 2025.

This inspection and exit interview were conducted with the facility representative.
