Mary Wilson
304 Hwy. 101 South
Crescent City, CA 95531

Customer ID: 3611
Certificate: 93-C-0389
Site: 001
MARY WILSON

Type: FOCUSED INSPECTION
Date: 19-AUG-2020

2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The facility did not have a written program of veterinary care.

The facility has a part-time attending veterinarian. Facilities that do not have a full-time veterinarian on site must have a written program of veterinary care in order to ensure that there is an understanding about expectations for the care of the animals. Failure to maintain a written program of veterinary care could result in failure to ensure optimal care for the animals.

The facility should create a new written program of veterinary care in collaboration with their attending veterinarian. To be corrected by 9/3/2020.

2.40(b)(3)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

A facility record titled "Pearl's Summary (January 2020 - June 2020)" pertaining to Pearl, an eight year old California sea lion, stated: "On 5/13 it was documented that she had a large swollen bite on top of her head..." This injury was not discussed with the attending veterinarian.

Daily observation of all animals in order to assess their health and well-being is an essential element of adequate care, and any issues related to health and well-being must be promptly communicated to the veterinarian, who can then make a determination as to whether any additional assessment / intervention / treatment may be needed.

Failure to communicate issues to the attending veterinarian could potentially result in unnecessary suffering and / or a poor medical outcome.

The facility must ensure that any issues concerning the health and well-being of the animals are promptly communicated to the attending (or substitute) veterinarian. To be corrected from this time forward.
