

Inspection Report

Harvey Kliebert Farms L L C
41067 West Yellow Water Rd
Hammond, LA 70403

Customer ID: **17196**

Certificate: **72-C-0218**

Site: 001

Harvey Kliebert Farms L L C

Type: ROUTINE INSPECTION

Date: 12-AUG-2015

3.127(d) REPEAT

FACILITIES, OUTDOOR.

At the time of inspection, the facility still does not have an appropriate perimeter fence that contains the regulated animals at the facility. This facility has a perimeter fence around the primary enclosures for the fox, nutria and raccoon that is comprised of three sides: a brick wall connected to the store entrance which faces the front of the property and a chain link fence on each opposite side, all at least six feet high. There is NO fourth side. Perimeter fences must be properly constructed as a secondary containment so as to protect and contain the regulated species and prevent unwanted entry by animals and unauthorized persons.

The inspection and exit interview was conducted with APHIS personnel Dr. Simone Tomlinson, VMO and the facility manager.
